Campus: _____ Teacher: _____ Date: _____

[illegible]

- For Mastery Tests and Rate & Accuracy Tests, record the original score in the top box. If the original score does not meet the criterion, highlight the score and in the bottom box record the retest results when completed.
- For Curriculum Based Assessments (CBA), the top box should reflect the student's original score (percentage of items correct). Highlight scores that do not meet the criterion the first time and record the retest results in the bottom box when completed.

- ✎ For **Independent Work** columns, record the combined percentage of Workbook and Textbook items correct. Exclude the writing assignment from the total number of items.
- ✎ For **Curriculum Based Assessments (CBA)**, first record the **Individual Reading Checkouts (IC)** with exact time over errors; then record the percentage from the **Multiple Choice (MC)** section; finally award 0-3 points for the **Writing Prompt (WP)**.
- ✎ For all scores that fall below the program criterion, highlight the cell, record the original score in the top of the box and in the bottom box record the retest results when completed.
